Education

Program	Institution/Board	%/CGPA	Year of completion
B.Tech in Electrical Engineering	Indian Institute of Technology Madras, Chennai	8.43	2021
CBSE Grade 12	Sri Sankara Senior Secondary School, Adyar	95.2%	2017
CBSE Grade 10	Sri Sankara Senior Secondary School, Adyar	9.80	2015

Scholastic Achievements

- Did **Branch Change** from B.Tech Metallurgy to B.Tech Electrical in Sem 1 with a **GPA of 9.70**.
- Won **Gold Medal** for Zonal Excellence at SOF Mathematics Olympiad (IMO) 2015, *among 10,000 students.*
- Secured **Rank 1** in South India Region at Ahaguru Physics Challenge - 2015, *among 15,000 students.*
- **Ranked 4329 (General)** in JEE Advanced 2017 (of 175,000 applicants)
- **Ranked top 0.5% (General)** in JEE Mains 2017 (of 1.3 million applicants)

Research Projects

- **Novel 4-stage Cache Coherence Protocol**, towards B.Tech Thesis | *Prof. Madhu Mutyam* ***(Sep 2020 - Ongoing)***
  - Programmed and simulated the novel 4-stage coherency protocol using **gem5 simulator**
  - in the process of analyzing performance metrics for varied workloads, and benchmarking against the MESIF protocol.
- **Custom Soft Processor Core,** for the IITM 5G Radio Testbed Project | *Prof. Nitin Chandrachoodan* ***(Sep 2020 - Ongoing)***
  - The soft processor core is optimized resource-wise and timing-wise to run the "Physical Layer Controller" of the 5G testbed.
  - "Physical Layer Controller" gets data through **AXI Stream**, based on which control information is sent to the various modules of the Physical layer system, such as modulation, error control coding, scrambling of bits, FFTs, etc.
- **SHAKTI,** India's first indigenously designed & manufactured microprocessor | *Prof. Kamakoti V* ***(Sep 2019 - Dec 2019)***
  - Built **Macro-Operation Fusion** feature in the Decode stage for the **RISC-V SHAKTI F Class Microprocessor** prototype.
  - Involved fusing RISCV instructions in the front-end of the pipeline to reduce total dynamic instruction count.
  - Examples of macro-fused instructions implemented include Load Effective Address, Wide Multiply/Divide, Load Upper Immediate, etc.
  - Coded in **Blue-Spec Verilog** | In an overall team size of 25, solely responsible for the Macro-Operation Fusion module.

Technical Professional Experiences

- Intern at Data Centre Group**, Xilinx, India** ***(May 2020 - Jul 2020)***
  - Built a **power throttling algorithm** for the **Samsung U.2 SmartSSD**; controls the power by modifying bandwidth & frequency
  - Provided the insight to shift from SSD controlled throttling to **FPGA controlled throttling** for higher response speed.
  - 2 different project implementations for the dynamic power throttling requirement;
    - High-level approach; used Python, NVMe commands and BASH to dynamically adjust the SSD bandwidth.
    - Switch-level approach; built an **IP Module** to control the bandwidth at a packet level, coded entirely in RTL Verilog.
  - Improved the bandwidth **by 10x** and power throttling performance **by 3x** compared to the existing algorithm.
  - Module runs **at 250MHz** | Verified and validated at the synthesis level
  - In the process of **application for a patent through Xilinx**.
- Intern at Data Centre Group**, Xilinx, India** ***(May 2019 - Jul 2019)***
  - Built a Hardware Accelerator IP for **RAID6 Disk Storage System**, using RTL Verilog.
  - Also responsible for the **AXI Stream and AXI Lite** interfaces for data transfer to the RAID6 core.
  - Module runs at **maximum of 300MHz** | Took the initiative to help with validation and configuration of the IP Module
- Intern at **Carizen Software Pvt. Ltd., Chennai** ***(Jun 2018 - Jul 2018)***
  - **Teaching Assistant** to an Employee Training course on the Linux OS (**CentOS 7**), Linux terminal commands, Bash script, and computer networking.
  - Helped the trainees better grasp the concepts taught during the course through innovative and interactive exercises.

Academic Course Projects

- **Designing a pipelined signed 8-bit Multiplier,** EE5311:Digital IC Design ***(Aug 2020 - Dec 2020)***
  - Used Electric to design the layout, transistor level circuit and icon for the signed 8-bit Multiplier | Simulated **using LTSpice**

- **Implementation of a Cross-Core Covert Channel**, CS6330:Secure Processor Microarchitecture *(Feb 2020 - May 2020)*
  - Uses Flush+Reload in L1 Cache to establish a Cross-Core Covert Channel, achieving maximum bandwidth **of 700 MB/s.**
  - https://github.com/rishabh-c-s/Cross_Core_Covert_Channel
- **Implementation of a 5-stage pipelined RISCV-32I processor,** EE2003:Computer Organization *(Aug 2019 - Nov 2019)*
  - Added Multiply operations from RV-32M ISA using a dedicated memory-mapped peripheral integrated in the Memory stage.
  - Processor includes error-handling | runs **at peak 250MHz** | https://github.com/rishabh-c-s/RISCV-Processor
- **An Arcade of Video Games**, for a School Tech Innovation Exhibition *(Jul 2016 - Dec 2016)*
  - An integrated gaming platform which allows the user to play multiple games, won **Best High School Project**.
  - Coded in C++, utilized Object Oriented Programming, Dynamic Memory, Arrays and other programming concepts.
  - https://github.com/rishabh-c-s/gaming_arcade_LALABOTS

Relevant Coursework and Labs

G - Graduate Level Courses, level 5000 or higher

- Computer Architecture (Ongoing) **(G)**
- Digital IC Design (Ongoing) **(G)**
- Secure Processor Microarchitecture & Lab **(G)**
- Digital System Testing & Testable Design (Ongoing) **(G)**
- Mapping Signal Processing Algorithms to DSP Architectures **(G)**
- Digital Signal Processing
- Microprocessor Theory & Lab
- Computer Organization & Lab

Skills

- **Programming languages (Advanced)**: C, C++, Python, Verilog, Bluespec Verilog, BASH
- **Programming languages (Intermediate)**: JavaScript, MATLAB, GNU Octave, x86 Assembly Language
- **Tools**: Vivado, Vivado HLS, ISE, iVerilog, SpyGlass, LTspice, Electric, Cachegrind, Autodesk

Co-Curricular Experiences

- **Teaching Assistant, "**Computer Organization" course, *for Prof. Nitin Chandrachoodan* *(Aug 2020 - Dec 2020)*
  - Classroom Responsibilities – Weekly sessions for review of material covered in lecture, assisting during lab sessions
  - Assignment Responsibilities – Making test benches, Grading the assignments, Addressing students' doubts
- **Social Volunteer at Avanti Fellows**, Pondicherry *(Jul 2017 - May 2018)*
  - Mentor for grade 11 and grade 12 under-privileged students in JNV Puducherry School, guiding them for IIT-JEE.
  - **30 students** cleared JEE Mains 2018 | **7 students** secured admissions in top 5 IITs, joined 2018 | Class strength: **40**

Positions of Responsibility

- **Literary Secretary**, Saraswathi Hostel IIT Madras, 2019-20 term *(Aug 2019 - Apr 2020)*
  - **Elected** to the **hostel executive council** by an electorate of **400 students** to manage all hostel cultural activities.
  - Envisioned and built the Saraswathi Library from scratch, currently the biggest hostel library of IIT Madras
  - Supervised a budget of **Rs. 1 Lakh** over the academic year 2019-20.
- **Convener & Club Captain**, Oratory and Comedy Club, IIT Madras, 2019-20 term *(Aug 2019 - Apr 2020)*
  - Responsible for cultivating the Speaking Arts Cultural Community of IITM through workshops and competitions
  - Organized the Oratory & Comedy events at **Saarang 2020**, attracted total participation **of ~300 students** in the events.
  - Lead the IIT Madras Oratory and Comedy Contingent in **"Inter-IIT Culturals 2019"** and other cultural festivals.

Extracurricular Achievements and Activities

- **Literary & Arts;**
  - **MVP Award**, LitSoc 2019-20, for accumulating the most points in cultural events as an individual among 8000+ students.
  - **Winner, Debate**, Festember, NIT Trichy 2019 *(among 40 teams)* | **Winner, Debate**, LitSoc 2018-19 *(among 22 participants)*
  - **3rd place, Improv Comedy,** Saarang 2020, India's biggest cultural festival *(among ~50 teams)*
  - **Best Director and Winning Drama**, Stage Play (Dramatics), LitSoc 2018-19, *(among 15 participating hostel teams)*
- **Sports;**
  - District-level Badminton player; **Winner, Chengalpattu District Badminton Tournament 2012**
  - Member of the **hostel football & hockey team** from 2018-20; **Champions, Dean's Trophy Football, 2020**
- **Music;**
  - Trained in Piano **for 8 years** | **Winner,** the esteemed Sumukhi Rajasekharan Foundation Piano competition
